

2017 IEPPEC Conference – Draft Agenda November 1- 2 Bangkok, Thailand

8:00-8:30 Registration 0FENING PLEMARY Brian Motherway, IEA OPENING PLEMARY Brian Motherway, IEA 8:30-10:00 How Do We Measure the Effect of Energy Efficiency on Prosperity? "Energy efficiency can and should play a much greater role in our economic and social development. So how do we convince governments to prioritise energy efficiency policies and programmes to drive investment across our economies? IEPPEC and the IEA are working together to provide the evidence to drive this change." [presentation] 10:00-10:30 Morning Strak EVALUATION OF MULTIPLE IMPACTS OF ENERGY EFFICIENCY Moderator: Kothleen Goffner, Movigant Energy efficiency plenter basides saving energy, particularly health impacts. This session covers the challenges of designing and implementing evaluation studies of multiple impacts and how to overcome reluctance to accept and report positive effects. This session will also examine the role of partnerships in achieving the multiple benefits of energy efficiency, of brain indicators that can be used to evaluate partnerships, and tools and metrics for evaluating multiple impacts. • Health impact Assessment of Energy Efficiency In Buildings: A Case Study of the UK – Philip Symonds, University College London [presentation] • The Challenges of implementing a Multiple Impacts of Energy Efficiency Framework: Early Lessons from Australia - Nary O'Neill, Office of Environment and Heritage NSW • Indicator Development and Evaluating the Multiple Impacts of Energy Efficiency Auchael Reid, The Keyline Group [presentation] • Chauton Community in Asia, apticularly in developing courties. • Cr	WEDNESDAY MORNING - NOVEMBER 1		
Brian Motherway, IEA 8:30 – 10:00 "Energy efficiency can and should play a much greater role in our economic and social development. So how do we convince governments to prioritise energy efficiency policies and programmes to drive investment across our economics? IEPPEC and the IEA are working together to provide the evidence to drive this change." (presentation) 10:00 – 10:30 Morning Break 10:30 – 12:00 Concurrent Sessions EVALUATION OF MULTIPLE IMPACTS OF ENERGY EFFICIENCY Moderator: Kathieen Goffrey, Navigant Energy efficiency rol has uncounted benefits besides saving energy, particularly health impacts. This session covers the challenges of designing and implementing evaluation studies of multiple impacts and how to overcome reluctance to accept and report positive effects. This session will also examine the role of partnerships, and tools and metrics for evaluating multiple impacts. • Health Impact Assessment of Energy Efficiency in Buildings: A Case Study of the UK – Philip Symonds, University College London [presentation] • The Challenges of Implementing a Multiple Impacts of Energy Efficiency - Michael Reid, The Keyline Group [presentation] • The Challenges of Implementing a Multiple Impacts of Energy Efficiency - Michael Reid, The Keyline Group [presentation] • Seedon activities and projects in Asia and elsewhere, this session assesses the need for capacity building, financial mechanisms, adptive management, commitment of key stakeholders, and transformational change for development Solutions • Creating an Evaluation Community in Asia - Edward Vine, Lawrence Berkeley National	8:00 - 8:30	Registration	
Surasaki I "Energy efficiency can and should play a much greater role in our economic and social development. So how do we convince governments to prioritise energy efficiency policies and programmes to drive investment across our economics? IEPEC and the IEA are working together to provide the evidence to drive this change." [presentation] 10:00-10:30 Morning Break 10:30-12:00 Concurrent Sessions VALUATION OF MULTIPLE IMPACTS OF ENERGY EFFICIENCY Moderator: Kathleen Goffney, Navigant Energy efficiency has uncounced benefits besides saving energy, particularly health impacts. This session covers the challenges of designing and implementing evaluation studies of multiple impacts and how to overcome reluctance to accept and report positive effects. This session will also examine the role of partnerships in achieving the multiple benefits of energy efficiency, potential indicators that can be used to evaluate partnerships, and tools and metrics for evaluating multiple impacts. • Health Impact Assessment of Energy Efficiency in Buildings: A Case Study of the UK – Philip Symonds, University College London [presentation] • The Challenges of Implementing a Multiple Impacts of Energy Efficiency - Michael Reid, The Keyline Group [presentation] • The Challenges of unplementing a Multiple Impacts of Energy Efficiency - Michael Reid, The Keyline Group [presentation] • USULON CAPACITY BUILDING IN ASIA • VALUATION CAPACITY BUILDING IN ASIA • VALUATION CAPACITY BUILDING IN ASIA • Creating an Evaluation community in Asia - Edward Vine, Lawrence Berkeley National Laboratory		Brian Motherway, IEA	
10:30 – 12:00 Concurrent Sessions EVALUATION OF MULTIPLE IMPACTS OF ENERGY EFFICIENCY Moderator: Kathleen Gaffney, Navigant Energy efficiency has uncounted benefits besides saving energy, particularly health impacts. This session covers the challenges of designing and implementing evaluation studies of multiple impacts and how to overcome reluctance to accept and report positive effects. This session will also examine the role of partnerships in achieving the multiple benefits of energy efficiency, potential indicators that can be used to evaluate partnerships, and tools and metrics for evaluating multiple impacts. • Health Impact Assessment of Energy Efficiency in Buildings: A Case Study of the UK – Philip Symonds, University College London [presentation] • The Challenges of Implementing a Multiple Impacts of Energy Efficiency Framework: Early Lessons from Australia - Mary O'Neill, Office of Environment and Heritage NSW • Indicator Development and Evaluating the Multiple Impacts of Energy Efficiency - Michael Reid, The Keyline Group [presentation] EVALUATION CAPACITY BUILDING IN ASIA Moderator: Li Pengcheng, CMIS Based on activities and projects in Asia and elsewhere, this session assesses the need for capacity building, financial mechanisms, adaptive management, commitment of key stakeholders, and transformational change for developing an evaluation community in Asia, particularly in developing countries. • Creating an Evaluation Community in Asia - Edward Vine, Lawrence Berkeley National Laboratory [presentation] • USD100 Billion a Year for Climate Finance is a Lot of Money, Let's Spend It Effectively - Charles Michaelis, Strategy Development Solutions		"Energy efficiency can and should play a much greater role in our economic and social development. So how do we convince governments to prioritise energy efficiency policies and programmes to drive investment across our	
 EVALUATION OF MULTIPLE IMPACTS OF ENERGY EFFICIENCY Moderator: Kathleen Gaffney, Navigant Energy efficiency has uncounted benefits besides saving energy, particularly health impacts. This session overcome reluctance to accept and report positive effects. This session will also examine the role of partnerships in achieving the multiple benefits of energy efficiency, potential indicators that can be used to evaluate partnerships, and tools and metrics for evaluating multiple impacts. Health Impact Assessment of Energy Efficiency in Buildings: A Case Study of the UK – Philip Symonds, University College London [presentation] The Challenges of Implementing a Multiple Impacts of Energy Efficiency Framework: Early Lessons from Australia - Mary O'Neill, Office of Environment and Heritage NSW Indicator Development and Evaluating the Multiple Impacts of Energy Efficiency - Michael Reid, The Keyline Group [presentation] EVALUATION CAPACITY BUILDING IN ASIA Moderator: Li Pengcheng, CNIS Based on activities and projects in Asia and elsewhere, this session assesses the need for capacity building, financial mechanisms, adaptive management, commitment of key stakeholders, and transformational change for developing an evaluation Community in Asia, Particularly in developing countries. Creating an Evaluation Community in Asia - Edward Vine, Lawrence Berkeley National Laboratory [presentation] USD10D Billion a Year for Climate Finance is a Lot of Money, Let's Spend It Effectively - Charles Michaelis, Strategy Development Solutions Evaluation Lessons Learned from North America – Robert Wirtshafter, Wirtshafter Associates, Inc. [presentation] Introduction to the Certified Energy Savings Verifier – Thomas K. Dreessen, EVO [presentation] Introduction to the Certified Energy Savings Verifier – Thomas K. Dreessen, EVO [presentation] Felenter presentation] [Utito present	10:00 - 10:30	Morning Break	
Noderator: Kathleen Gaffney, Navigant Energy efficiency has uncounted benefits besides saving energy, particularly health impacts. This session covers the challenges of designing and implementing evaluation studies of multiple impacts and how to overcome reluctance to accept and report positive effects. This session will also examine the role of partnerships in achieving the multiple benefits of energy efficiency, potential indicators that can be used to evaluate partnerships, and tools and metrics for evaluating multiple impacts. • Health Impact Assessment of Energy Efficiency in Buildings: A Case Study of the UK – Philip Symonds, University College London [presentation] • The Challenges of Implementing a Multiple Impacts of Energy Efficiency Framework: Early Lessons from Australia - Mary O'Neill, Office of Environment and Heritage NSW • Indicator Development and Evaluating the Multiple Impacts of Energy Efficiency - Michael Reid, The Keyline Group [presentation] • EVALUATION CAPACITY BUILDING IN ASIA Moderator: Li Pengcheng, CNIS Based on activities and projects in Asia and elsewhere, this session assesses the need for capacity building, financial mechanisms, adaptive management, commitment of key stakeholders, and transformational change for developing on evaluation community in Asia, particularly in developing countries. • Creating an Evaluation Community in Asia - Edward Vine, Lawrence Berkeley National Laboratory [presentation] • USD100 Billion a Year for Climate Finance is a Lot of Money, Let's Spend It Effectively - Charles Michaelis, Strategy Development Solutions • Evaluation Lessons Learned from North America – Robert Wirtshafter, Wirts	10:30 - 12:00	Concurrent Sessions	
 the challenges of designing and implementing evaluation studies of multiple impacts and how to overcome reluctance to accept and report positive effects. This session will also examine the role of partnerships in achieving the multiple benefits of energy efficiency, potential indicators that can be used to evaluate partnerships, and tools and metrics for evaluating multiple impacts. Health Impact Assessment of Energy Efficiency in Buildings: A Case Study of the UK – <i>Philip Symonds, University College London</i> [presentation] The Challenges of Implementing a Multiple Impacts of Energy Efficiency Framework: Early Lessons from Australia - <i>Mary O'Neill, Office of Environment and Heritage NSW</i> Indicator Development and Evaluating the Multiple Impacts of Energy Efficiency - <i>Michael Reid, The Keyline Group</i> [presentation] EVALUATION CAPACITY BUILDING IN ASIA Moderator: Li Pengcheng, CNIS Based on activities and projects in Asia and elsewhere, this session assesses the need for capacity building, financial mechanisms, adaptive management, commitment of key stakeholders, and transformational change for developing an evaluation community in Asia - <i>Edward Vine, Lawrence Berkeley National Laboratory</i> [presentation] USD100 Billion a Year for Climate Finance is a Lot of Money, Let's Spend It Effectively - <i>Charles Michaelis, Strategy Development Solutions</i> Evaluation Lessons Learned from North America – <i>Robert Wirtshafter, Wirtshafter Associates, Inc.</i> [presentation] Introduction to the Certified Energy Savings Verifier – <i>Thomas K. Dreesen, EVO</i> [presentation] Elenter presentation] [Uito presentation] [Codin presentation] Elenter presentation] [Uito present			
 College London [presentation] The Challenges of Implementing a Multiple Impacts of Energy Efficiency Framework: Early Lessons from Australia - Mary O'Neill, Office of Environment and Heritage NSW Indicator Development and Evaluating the Multiple Impacts of Energy Efficiency - Michael Reid, The Keyline Group [presentation] EVALUATION CAPACITY BUILDING IN ASIA Moderator: Li Pengcheng, CNIS Based on activities and projects in Asia and elsewhere, this session assesses the need for capacity building, financial mechanisms, adaptive management, commitment of key stakeholders, and transformational change for developing an evaluation community in Asia, particularly in developing countries. Creating an Evaluation Community in Asia - Edward Vine, Lawrence Berkeley National Laboratory [presentation] USD100 Billion a Year for Climate Finance is a Lot of Money, Let's Spend It Effectively - Charles Michaelis, Strategy Development Solutions Evaluation Lessons Learned from North America – Robert Wirtshafter, Wirtshafter Associates, Inc. [presentation] Introduction to the Certified Energy Savings Verifier – Thomas K. Dreessen, EVO [presentation] SOAPBOX SESSION The potential contribution of blockchain technology to scale investment into energy efficiency: implications for evaluation" - Ingo Puhl, Director Strategy, South Polar Group [presentation] Elenter presentation] (Litto presentation] [Godin presentation] Follow an informal session where attendees can talk on the subject of their choice for around five minutes. We would like to hear about evaluations you have conducted or are planning to conduct, data collection or analysis techniques you have employed, and how evaluations have been used to improve policies or programmes. 		the challenges of designing and implementing evaluation studies of multiple impacts and how to overcome reluctance to accept and report positive effects. This session will also examine the role of partnerships in achieving the multiple benefits of energy efficiency, potential indicators that can be used to evaluate partnerships, and tools	
 Mary O'Neill, Office of Environment and Heritage NSW Indicator Development and Evaluating the Multiple Impacts of Energy Efficiency - Michael Reid, The Keyline Group [presentation] EVALUATION CAPACITY BUILDING IN ASIA Moderator: Li Pengcheng, CNIS Based on activities and projects in Asia and elsewhere, this session assesses the need for capacity building, financial mechanisms, adaptive management, commitment of key stakeholders, and transformational change for developing an evaluation community in Asia, particularly in developing countries. Creating an Evaluation Community in Asia - Edward Vine, Lawrence Berkeley National Laboratory [presentation] USD100 Billion a Year for Climate Finance is a Lot of Money, Let's Spend It Effectively - Charles Michaelis, Strategy Development Solutions Evaluation Lessons Learned from North America – Robert Wirtshafter, Wirtshafter Associates, Inc. [presentation] Introduction to the Certified Energy Savings Verifier – Thomas K. Dreessen, EVO [presentation] SOAPBOX SESSION The potential contribution of blockchain technology to scale investment into energy efficiency: implications for evaluation" - Ingo Puhl, Director Strategy, South Polar Group [presentation] [Elenter presentation] [Uito presentation] [Godin presentation] [Kamsamrong presentation] [Bliss presentation] Follow an informal session where attendees can talk on the subject of their choice for around five minutes. We would like to hear about evaluations you have conducted or are planning to conduct, data collection or analysis techniques you have employed, and how evaluations have been used to improve policies or programmes. 	Sura		
Group [presentation] EVALUATION CAPACITY BUILDING IN ASIA Moderator: Li Pengcheng, CNIS Based on activities and projects in Asia and elsewhere, this session assesses the need for capacity building, financial mechanisms, adaptive management, commitment of key stakeholders, and transformational change for developing an evaluation community in Asia, particularly in developing countries. • Creating an Evaluation Community in Asia - Edward Vine, Lawrence Berkeley National Laboratory [presentation] • USD100 Billion a Year for Climate Finance is a Lot of Money, Let's Spend It Effectively - Charles Michaelis, Strategy Development Solutions • Evaluation Lessons Learned from North America – Robert Wirtshafter, Wirtshafter Associates, Inc. [presentation] • Introduction to the Certified Energy Savings Verifier – Thomas K. Dreessen, EVO [presentation] • The potential contribution of blockchain technology to scale investment into energy efficiency: implications for evaluation" - Ingo Puhl, Director Strategy, South Polar Group [presentation] 12:00 – 13:00 Surasak I [Elenter presentation] [Uitto presentation] [Godin presentation] [Elenter presentation] [Uitto presentation] [Godin presentation] [Kamsamrong presentation] [Bliss presentation] Follow an informal session where attendees can talk on the subject of their choice for around five minutes. We would like to hear about evaluations you have conducted or are planning to conduct, data collection or analysis techniques you have employed, and how evaluations have been used to improve policies or programmes.		- Mary O'Neill, Office of Environment and Heritage NSW	
Noderator: Li Pengcheng, CNIS Based on activities and projects in Asia and elsewhere, this session assesses the need for capacity building, financial mechanisms, adaptive management, commitment of key stakeholders, and transformational change for developing an evaluation community in Asia, particularly in developing countries. • Creating an Evaluation Community in Asia - Edward Vine, Lawrence Berkeley National Laboratory [presentation] • USD100 Billion a Year for Climate Finance is a Lot of Money, Let's Spend It Effectively - Charles Michaelis, Strategy Development Solutions • Evaluation Lessons Learned from North America – Robert Wirtshafter, Wirtshafter Associates, Inc. [presentation] • Introduction to the Certified Energy Savings Verifier – Thomas K. Dreessen, EVO [presentation] Starasak I 12:00 – 13:00 Surasak I Image: Normal Session where attendees can talk on the subject of their choice for around five minutes. We would like to hear about evaluations you have conducted or are planning to conduct, data collection or analysis techniques you have employed, and how evaluations have been used to improve policies or programmes.			
 financial mechanisms, adaptive management, commitment of key stakeholders, and transformational change for developing an evaluation community in Asia, particularly in developing countries. Creating an Evaluation Community in Asia - Edward Vine, Lawrence Berkeley National Laboratory [presentation] USD100 Billion a Year for Climate Finance is a Lot of Money, Let's Spend It Effectively - Charles Michaelis, Strategy Development Solutions Evaluation Lessons Learned from North America – Robert Wirtshafter, Wirtshafter Associates, Inc. 13:00 – 14:00 Lunch Break			
	13:00 - 14:00	Lunch Break	

Draft as of 102517

Draft as of 102517 14:00 – 15:30	Concurrent Sessions
14.00 - 15.50	EVALUATING GENDER IN ENERGY EFFICIENCY POLICIES AND PROGRAMMES IN ASIA
PANEL Surask I	Moderator: Anne Dougherty, ILLUME Advising
	This interactive session will review the challenges of developing policies that recognize gender differences and addresses imbalances and promotional equity, and social inclusion issues. The session will include exercises to lead people along a path of thinking through the potential gender implication for their energy policies and programmes. We will explore how they can use monitoring and evaluation to improve outcomes for all.
	 Evaluating Gender in Energy Efficiency Policies and Programmes in Asia - Edward Vine, Lawrence Berkeley National Laboratory [presentation]
	 Discussion Using the Care Toolkit as a Basis for Discussion: <u>http://careclimatechange.org/tool-kits/mait-it-count-integrating-gender</u>
15:30 - 16:00	Afternoon Break
16:00 - 17:00	PANEL DISCUSSION
	THE ROLE OF ENERGY EFFICENCY IN ENVIRONMENTAL, ECONOMIC, AND SOCIAL DEVELOPMENT Moderator: Michael Reid, The Keyline Group
PANEL Surask I	"Energy efficiency can and should play a much greater role in our economic and social development. So how do we convince governments to prioritise energy efficiency policies and programmes to drive investment across our economies?" <i>Brian Motherway, IEA</i>
	IEPPEC and the International Energy Agency (IEA) are working together to provide the evidence to drive this change. This panel opens a conversation to explore this broader link to sustainable development and the 'indivisible whole' that is prompted by the IEA's Multiple Benefits of Energy Efficiency (MBEE) framework and the UN Sustainable Development Goals (SDG). Drawing on expertise in MBEE and SDG, the panel explores three key areas:
	1. What role does the MBEE framework and the UN SDGs take up in breaking down the silos that policy makers tend to operate in?
	2. Is the energy efficiency sector embracing the transformative potential of policy coherence?
	3. What more could we be doing to advance this emerging area of endeavor?
	• Mary O'Neill, Office of Environment and Heritage NSW
	• Brian Motherway, IEA
	• Edward Vine, Lawrence Berkeley National Laboratory [presentation]
	• Fabian Kreutzer, ESCAP United Nations Economic and Social Commission for Asia and the Pacific
47.00 40.00	BUILDING AN EVALUATION COMMUNITY IN ASIA – OPTIONAL
17:00 – 18:00 Surasak I	If you are interested in helping IEPPEC to build an evaluation community in Asia, then come along to this meeting to learn more about what's involved and how you could help.

	THURSDAY MORNING - NOVEMBER 2
7:30 – 8:30	Continental Breakfast & Registration
8:30 - 10:00	Concurrent Sessions
Surasak II	PROVIDING KEY INFORMATION TO POLICYMAKERS FOR PROGRAMME AND POLICY DESIGN AND IMPLEMENTATION Moderator: Melanie Slade, IEA
	Effective evaluation needs to reflect the social, technical and commercial environment in which a policy or programme has been implemented. This session will bring together experiences of evaluating energy efficiency programmes in three very different environments illustrating a range of evaluation approaches that can be applied in different contexts.
Su	 Lessons Learned from Reviewing an Entire Portfolio of Energy Efficiency and Renewables Programmes - Amelia Smith, Energy Efficiency and Conservation Authority [presentation]
	 Analysis of Program Administrative Cost of Saved Energy in Geneva, Switzerland in Comparison with Leading States in the U.S. – Hae-In Cho, University of Geneva [presentation]
	 A Stakeholder Takeover of National Energy Policy - Ton van Dril, ECN [presentation]
	AUDITS AND ENERGY MANAGEMENT IN INDUSTRIAL AND COMMERCIAL BUILDINGS AND DAIRY FARMS Moderator: Archana Walia, CLASP
	Energy audits and energy management systems can play a critical role in policy implementation and understanding the impact and future potential of energy efficiency within the community of non-residential energy efficiency policy analysts, project developers, and evaluators in the Asian-Pacific region.
6 Surasak III	 Evaluation of the Impact of Obligatory Energy Audits for Large Companies in Germany on Improvement of Energy Efficiency - Edelgard Gruber, IREES [paper] [presentation]
Sui	 Energy Efficiency Networks for SMEs – Program Theory and Ongoing Evaluation - Ida Johansson, University of Gävle [paper] [presentation]
	 Energy Efficiency in Dairy Milk Farms, Realization of 500 Standardized Energy Audits, Impact Analysis of the Programme - Ernesto Elenter, UDELAR - Faculty of Engineering - University of Uruguay [paper] [presentation]
	 GHG Abatement Roadmap for the Industrial Sector in Thailand – Lindee Wong, Ecofys – A Navigant Company [paper] [presentation]
10.00 - 10.30	Break
	EVALUATION CLINIC
10:30 – 11:30 Surasak I	This is your chance to raise challenges and issues you have encountered (or think you might encounter) in designing or conducting evaluations. We will have a panel of evaluation experts ready and able to answer your questions and help you to conduct better evaluations. Questions can be submitted in advance and, if time allows, raised during the session
11:30 - 12:30	Lunch
<u> 12:30 – 14:00</u>	Concurrent Sessions
7 Surasak II	NEW DEVELOPMENTS IN ECONOMETRIC MODELLING, DYNAMIC PRICING, AND FORECASTING Moderator: Philipp Degens, Energy Trust of Oregon
	This session focuses on new developments in dynamic pricing (for residential customers living in hot and humid climates), end use modeling for studying consumer behavior at the level of individual end uses and market segments, and combining traditional load research practices with advanced metering and big data analytics.
	 Customer Response to Dynamic Pricing in a Hot and Humid Climate: A Case Study of Florida - Neil Lessem, The Brattle Group [presentation]
	• A Hybrid Model for Forecasting Electricity Sales and Peak Demand: A Case Study of TNB in Malaysia - Ahmad Faruqui, The Brattle Group [presentation]

Draft as of 102517

Draft as of 102517 12:30 – 14:00	Concurrent Sessions
8 Surasak III	 APPLIANCE STANDARDS AND LABELING PROGRAMMES Moderator: Kritika Rasisuddhi, EGAT This session focuses on programmes relating to energy-efficient appliances and equipment, with the overall objective to reduce global electricity consumption and mitigate climate change. The papers examine how evaluation has been used to develop policy approaches to adopt and implement the most efficient technologies, along with a discussion of the challenges and difficulties in seeking solutions. India's Experience in Implementing Strategic Schemes to Enhance Appliance Energy Efficiency & Futuristic Integrated Policy Approaches to Adopt Most Efficient Technologies - Archana Walia, S. Sundaramoorthy, CLASP [paper] [presentation] Evaluation of Compliance Frameworks of Labeling Programmes – Neha Dhingra, CLASP [paper] [presentation]
14:00 - 14:30	Break
14:30 - 16:00	Concurrent Sessions
9 Surasak II	 REDUCING GREENHOUSE GAS EMISSIONS: POLICIES, INDICATORS, AND EVALUATIONS Moderator: Martin Brown-Santirso, Asia Pacific Energy Research Centre Emission reduction commitments and actions are at the the front line in Asia and elsewhere. Policies and legislation are being put in place to promote energy efficiency in all sectors, and the evaluation of these policies is critical, although challenging due to data and information gaps. Tools are needed to track progress against the emission reduction commitments and actions of countries, and to point out where more policies need to be enhanced to meet those commitments. Energy Efficiency and its Contributions to Mitigating Singapore's GHG Emissions - J. C. Ho, Energy Studies Institute, NUS [paper] [presentation] Towards Low-Carbon Economy: Approaches and Evidence from GEF Climate Mitigation Evaluations - Juha Uitto, Geeta Batra, and Neeraj Negi, Global Environment Facility Independent Evaluation Office [paper] [pres] The Climate Action Tracker - Tracking Progress Towards NDCs - Lindee Wong, Ecofys [presentation]
PANEL Surasak III	 EXPERIENCES ON THE REGIONAL HARMONIZATION OF STANDARDS IN THE ASEAN AND REPLICATING IN OTHER REGIONS Moderator: Steve Kukoda, International Copper Association [presentation] This panel describes the methodologies that led to the first regionally harmonized standard in the ASEAN region, for room air conditioners, and ongoing efforts to expand the project to include other appliances. This panel discusses newly created policy guides and roadmaps for lighting, refrigerators, and air conditioners (as well as for motors and distribution transformers) that, when implemented, will lead to total market transformations towards energy efficient appliances. At the heart of these market transformations are mandatory Minimum Energy Performance Standards (MEPS) and associated policy frameworks, including creative financing mechanisms. Without intervention, these developing economies will lock-in inefficient appliances that will exacerbate climate change and make unstable grids even more so. Mr. Pierre Cazelles, Director – Partnerships Asia, International Copper Association [presentation] Dr. Chin Wai Meng, Senior Manager R&D – Daikin Malaysia [presentation] Jean-Marc Alexandre, UN Environment [presentation]
16:00 - 16:30	Break
10.00 10.00	

Draft as of 102517	
16:30 - 17:30	CLOSING PLENARY
PANEL Surasak I	 USE OF EVALUATION BY POLICYMAKERS Moderator: Charles Michaelis, Strategy Development Solutions The purpose of evaluation is to enable policy makers to achieve the desired social objectives more effectively. Evaluation of energy efficiency policies should support policy makers to develop better policies which, in turn, deliver more energy efficiency and result in lower energy consumption than would otherwise have been the case. Too often, however, evaluation reports sit on a (virtual) shelf and are not used to improve the policies they were commissioned to investigate. The panel includes three policy makers who have used evaluation to improve the effectiveness of energy efficiency policies. They share their experience of using evaluation and the benefits to their policy making. The panel explores the challenges to making good use of evaluation and will investigate how individual panelists overcame those challenges in practice. The audience will pick up practical tips that they can use for their next evaluation. Panelists: Melanie Slade, IEA Amelia Smith, Energy Efficiency and Conservation Authority
17:30	Adjourn
